

Save on medications you take regularly

Finding ways to keep your medication costs affordable is our top priority.

That's why the Honeywell prescription benefit plan has enhanced the High Deductible Health Plan (HDHP) – Health Savings Account (HSA) Preventive Drug List. It gives you an easy way to save on medications you take every day (such as diabetes, high blood pressure or asthma medication).

Effective 3/1/2025

- Generic Preventive Medications will remain a \$0 copay
- Brand Preventive Medications (including diabetics) will now bypass the deductible and pay at your plan coverage of 20% coinsurance for 30-day (\$200 max) & 90-day (\$400 max) prescriptions.

How do I access this new coverage?

The Preventive Drug List is part of your plan. All you need to do is present your CVS Caremark® member ID card at the pharmacy when you fill your prescriptions. Your pharmacy will then automatically charge you your plan's applicable copay or coinsurance when you fill any medication on this list. If a medication you take regularly is not on the list, just ask your doctor if a listed medication might be right for you.

Want to see if your Rx is on the list?

Sign in to your account by visiting **Caremark.com** and use the Check Drug Cost tool to see medication costs.

Get Pumped, Honeywell Parents!

Your Milk Stork Benefit Just Got a Major Upgrade

Starting March 1, Honeywell is expanding its Milk Stork benefit to cover employees and spouses/domestic partners for both business and personal travel! That's right—whether you're heading out for a family vacation, visiting loved ones, or just taking a well-deserved break, Milk Stork has your back.

What is Milk Stork?

Milk Stork makes it easy to keep nourishing your baby, no matter where life takes you. With specially designed, temperature-controlled transport options delivered right to your door, you can safely and effortlessly ship your breast milk home—whether you're traveling for work or personal adventures. We handle the logistics, so you can focus on what matters most: your family.

What Does This Mean for You?

You're no longer limited to work-related trips when it comes to shipping your breast milk home. Now, every journey—professional or personal—is stress-free and parent-friendly for both employees and their spouses/domestic partners.

WHY THIS IS HUGE:

More Freedom: Travel confidently knowing Milk Stork is with you every step of the way.

Less Stress: No more juggling coolers, ice packs, or logistics. We handle the heavy lifting.

Family First: Continue nourishing your baby without missing a beat, no matter where life takes you.
